

WAGNERAIL SYSTEM

GLASS RAILING

CABLE RAILING

SPIRAL STAIRS BALCONIES

ALUMINUM RAILINGS

BRASS / SS FITTINGS

Pre-coped bottom rail attaches to post using a unique mounting bracket. Post has a **Flowdrill** hole for a strong mechanical connection. See pages 230 - 231 for more information on **Flowdrill**.

Wagnerail™ Connector

GLASS PANEL INFILLS – See page 30.

CABLE RAILING INFILL – See pages 46 - 63.

**AVAILABLE AS A KNOCKDOWN SYSTEM OR AS COMPONENTS FOR YOUR OWN ASSEMBLY
NO WELDING. SIMPLE TO INSTALL.**

SPECIFYING WAGNERAIL™ STAINLESS STEEL

- **Pipe Size:**
 - 1¼" or 1½" – 1.66" or 1.90" diameter respectively.
 - Posts are Schedule 40 – .140" thick – for superior strength.
- **Determine Mounting Option**
 - Surface, Embedded or Fascia Mount.
- **Stair/Ramp Angle**
- **Finish** – Satin or Polished
- **Height**
- **Online Configurators**
 - An online configuration tool is available to aid in the detailing of **Wagnerail™**. Go to www.wagnercompanies.com.
- **Field Dimensions** are required to insure a successful **Wagnerail™** installation.
- **Building Codes**
 - As with any railing, review your local codes to determine requirements as they apply to your installation.
- **Installation Instructions** – refer to pages 276 and 277.
