

WAGNERAIL SYSTEM

Wagner is pleased to offer the **3form Ecoresin® System** as an infill panel option in the **Wagnerail™ System**. The **Ecoresin® System** is a process of encapsulating textured, colored and natural interlayers allowing endless aesthetic possibilities and practical solutions.

Discover **Ecoresin®**, 3form's uniquely versatile **Ecoresin® Panel System** offering endless design possibilities, practical solutions and environmental responsibility. Engineered by encapsulating textured, colored and natural interlayers within high performance polymer skins, **ecoresin** is a diversely interchangeable system of translucent and opaque architectural panels. Explore thousands of color and texture combinations providing limitless aesthetic potential supported by 3form's unwavering commitment towards the environment, superior performance, and sustainability.

Color and texture fuse within **Ecoresin®** to create **Ecoresin's®** unique depth and vibrancy. Integrated to the designer's specification, color and texture are the building blocks of the **ecoresin** system. Reinvent any **ecoresin** texture by simply infusing color from 3form's extensive diverse palette or specify directly from the PANTONE® for architecture and interiors color system. Create project specific imagery and expressive patterns with 3form Digital™, a break-through technology that encapsulates vibrant digital images within **ecoresin**, providing the ultimate in material customization.

A major proponent of green principles in manufacturing, 3form is committed to a holistic approach to design – environment, social empowerment, and aesthetic refinement. In addition to their consistent use of recyclable and renewable materials in 3form products, they also focus their efforts into a concerted design philosophy. Full Circle is a standard by which they design, its objective to create products that make a social impact upon the world. From the utilization of renewable materials, to the empowerment of artisans in diverse communities, these particular products bring affirmation to the earth, to our societal partners, and we hope, in "full circle" to you.

Products shown here are a sample of available options. This product is in ongoing development. Visit our website for the latest product information.

All metals have a recycled content and high reclamation rate. Contact **Wagner** for data relating to your specific product selections.
