

ASTRAGALS and FACINGS
IN THE
MODERN MANNER

To fill a growing demand for sections in the *Modern Spirit*, we have created the designs illustrated on this page. The rhythm of light and shadows issuing from the surfaces gives the true Modernistic Feeling and should add much to enhance the simple beauty of a completed whole.

The Sections are useful for all manner of trim in the designing of Store Fronts, Elevator Enclosures, Bank Screens, Directory Boards, Wrought Furniture, Lighting Fixtures, etc., etc. They lend themselves readily to all finishes and to the so popular half-polish and chromium plate, particularly.
