

GILDERS PASTE®

Baroque Art Gilders Paste® offers a collection of various waxes, resins and high concentrations of pigments, for resistance to water and common chemical reagents with enhanced tint retention and hiding ability for coloring and highlighting interior and exterior applications.

Gilders Paste® colors can be layered on top of one another or mixed together to create an endless finish and color palette that will not fade.

Thin with small amounts of paint thinner to transform the highly concentrated **Gilders Paste®** into paint for your projects or for a stained or washed appearance.

A little **Gilders Paste®** goes a long way:

- 27ml (0.9 oz) container covers over 30 square feet.
- 92ml (2.1 oz) container covers over 100 square feet.

Gilders Paste® kits containing all of the 28 colors are available. Contact Wagner.
