

**The American Institute of Architects
Continuing Education Systems
AIA/CES Registered Provider Program Summary Handout**

Provider: The Wagner Companies
Program #: WAG102
Program: **Architectural Metal Applications – Handrailing and Other Ornamental Metal Work**
Length: 1 hour
Credits: 1 LU hour
HSW: No

Description: This program will highlight Architectural Metal Applications with particular attention given to handrailing and other ornamental metal work in steel, stainless steel, aluminum, brass and bronze.

Learning Objectives: After completion of this course, participants will have the following knowledge:

- Overview of metal railing options
- Understanding of how to specify metal handrail
- Metal finishing
- ADA and Code Issues

How Taught: The CES facilitator utilizes a PowerPoint or slide presentation to provide an overview of metal railing options. It will be an interactive session that encourages feedback and questions.

A/V Needs: Electrical power and screen for the PowerPoint presentation. The CES facilitator will supply the laptop and projector.

Target Audience: Architects, specifiers, interior designers, owners and other design professionals. The ideal audience size can be 10-40 people. This program is basic and meets the needs of professionals at every experience level.

Facilitator Qualifications: All of The Wagner Companies' CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

Costs: There is no cost to bring this program into your firm or chapter meeting.
