

The American Institute of Architects
Continuing Education Systems
AIA/CES Registered Provider Program Summary Handout

Provider: The Wagner Companies
Program #: WAG102
Program: Contemporary Railing Systems
Length: 1 hour
Credits: 1 LU hour HSW
HSW: Yes

Description: This program will introduce the audience to Contemporary Design Options for Railing Systems – e.g. post mounted systems, cable railing, structural glass railing, and LED illuminated railings. The program will also address code and safety issues related to handrails and guard; and opportunities for sustainability and LEED credits.

Learning Objectives: After completion of this course participants will have a working knowledge of the following:

- Contemporary Railing Systems
 - Post Mounted Systems
 - Cable Railing
 - Structural Glass Railing
 - Adding Illumination
- Code and Safety Issues
 - Accessibility
 - Code Requirements
 - Structural and Testing Criteria
 - Sustainability and LEED

How Taught: The CES facilitator utilizes a PowerPoint or slide presentation to provide an overview of current issues related to handrail. It will be an interactive session that encourages feedback and questions.

A/V Needs: Electrical power and screen for the PowerPoint presentation. The CES facilitator will supply the laptop and projector.

Target Audience: Architects, specifiers, interior designers, owners and other design professionals. The ideal audience size can be 10-40 people. This program is basic and meets the needs of professionals at every experience level.

Facilitator Qualifications: All of The Wagner Companies' CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

Costs: There is no cost to bring this program into your firm or chapter meeting.
